Front-End: React.js, Angular, Bootstrap, Responsive & Mobile-First Design, Cross-Browser Compatibility, RTL/LTR Bilingual UI
Back-End & APIs: PHP (Laravel), Node.js, RESTful API Development & Integration, OOP, Authentication & Role-Based Access Control
Databases: MySQL, MongoDB, Relational Schema Design, Query Optimization
Tools & Practices: Git, GitHub, VS Code, phpMyAdmin, cPanel, Custom Admin Dashboards & CMS, SEO, Web Performance Optimization
Additional: Security systems (CCTV, access control, fire alarm), IoT & Arduino, networking (CCNA, CCNP)

PROFESSIONAL EXPERIENCE

Senior Full-Stack Web Developer | *Rudiq Marketing Agency, Cairo, Egypt* Jan 2026 - Present
- Lead client web platform delivery end to end: front-end interfaces, back-end logic, database design and deployment.
- Build custom admin dashboards enabling non-technical clients to manage content, media and inquiries independently.
- Apply SEO-friendly semantic markup, asset optimization and cross-browser testing to improve performance and organic reach.

Web Development Instructor | *Raya Academy, Cairo, Egypt* 2025 - Present
- Deliver front-end and back-end training in HTML5, CSS3, JavaScript, React.js, Node.js and MongoDB.
- Design project-based curricula and mentor trainees through building and deploying real web applications.

Web Development Instructor | *Teaching Planet Academy, Cairo, Egypt* Jan 2025 - Present
- Teach HTML5, CSS3, JavaScript and back-end technologies, guiding students to dynamic, database-driven websites.
- Coach students on coding standards, debugging workflows and web development best practices.

IT Sales & Full-Stack Developer | *Smart IT Group, Giza, Egypt* 2025
- Managed client relationships end to end, handling technical inquiries and post-sale support to drive retention.
- Scoped and proposed customized technical solutions with engineering teams, translating requirements into deliverables.

Back-End Developer Trainee | *TAG Company for Software Solutions, Cairo, Egypt* Feb 2025
- Completed an intensive Node.js/MongoDB back-end program, building scalable modules and strengthening database management.

Python Instructor | *One Way Academy, Cairo, Egypt* Apr 2023
- Taught Python fundamentals, problem solving and hands-on scripting projects to beginner developers.

Software Engineer | *NetX, Cairo, Egypt* Jan 2023
- Contributed to software development and delivery across the company's web and systems projects.

Technical Trainee | *ZKTeco North Africa, Cairo, Egypt* 2023
- Hands-on training in security systems: access control, time attendance and device integration.

Technical Trainee | *HST Company, Alexandria, Egypt* 2022
- Trained with teams specializing in security, alarm, video surveillance and smart home systems.

Team Leader | *Tera Tronics, Cairo, Egypt* 2021 - Present
- Lead a technical team at a technology startup, coordinating project delivery, task allocation and quality standards across web and hardware products.

SELECTED PROJECTS
